

PV823 Dicing Tape

Pantech PV823 dicing tape is a non-UV type PVC dicing tape. It can recover easily after expansion. It is specially designed for wafer dicing process. It is RoHS free.

Characteristics:

Catalog No.	PV823
Thickness of substrate	0.070 mm
Total thickness	0.080 mm
Tensile strength	4.5 kg/in.
Elongation	200 %
Adhesion to stell	50 ± 20 g/in.
Color	transparent blue
Substrate	PVC
Adhesive	Acrylic
Liner	50μ PET release liner
Standard width	960 mm
Standard length	100M
